31 August 2021

Message from the Guest Editors

Innovation and entrepreneurship are not only major drivers of economic growth, but also facilitators of change. As such, they play a major role in the ongoing transition of our society towards a higher level of sustainability.

Research on innovation and entrepreneurship often takes a conventional view of value and value creation, focusing on the firm and the customer. However, research in sustainable innovation has gained momentum over the course of the last decade. In addition to the economic effects, the social and ecological effects of new products, services, and business models are increasingly coming into focus.

This Special Issue aims to contribute to a more holistic understanding of the role of entrepreneurship and innovation in creating a more sustainable future. We welcome contributions focusing on either the individual, organizational, or industry and societal perspective.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access:—free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High visibility: indexed by the [Science Citation Index Expanded](#) and [Social Sciences Citation Index](#) (Web of Science), as well as [Scopus](#) and [other databases](#).

Rapid Publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 14.5 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2020).
