Michaela Hruskova is a doctoral researcher in the triple-accredited Adam Smith Business School at the University of Glasgow. Her research interests focus on the topic of governance of entrepreneurial ecosystems and she is currently studying the role of various actors in developing, nurturing, and leading their local ecosystem. When she is not studying ecosystems, Michaela runs an award-winning chapter of Startup Grind University of Glasgow to educate, inspire, and connect entrepreneurially-minded students and staff.

Research Focus: entrepreneurial ecosystems, governance.

Sumita Sarma is Assistant Professor of Management at California State University, Bakersfield. Dr. Sarma has published in the Asia Pacific Journal of Management, Business Horizons, Entrepreneurship Research Journal, and Asia Pacific Journal of Marketing and Logistics on areas of firm-level strategies, entrepreneurial ecosystems, and entrepreneurship. Dr. Sarma is a member of the Academy of Management and has served as ad-hoc reviewer for multiple journals such as Research Policy, Journal of Small Business Management, Asian Pacific Journal of Marketing and Logistics, Asian Journal of Management Science and Applications, and proceedings for conferences such as Academy of Management, and USASBE.

Research Focus: Entrepreneurial ecosystem elements, new venture growth, societal attitudes.

Dr Marina Yue Zhang is currently working in the Swinburne Business School, Swinburne University of Technology, in Australia. Before joining Swinburne, Marina held faculty positions in the University of New South Wales in Australia and Tsinghua University in China, as well as senior management positions in IBM and Ericsson. Her research interests include: high-tech entrepreneurship in Asia, digital economy in China, disruptive/emerging technologies, technological catch-up of latecomer firms/sectors/nations, emerging market multinational firms, talent circulation, innovation ecosystems, knowledge acquisition/sharing within and across organizations, business environment for foreign firms in China

Research Focus: Innovation ecosystems, Emerging markets, China, Digital economies.

Timothy R. Hannigan's research and teaching interests at the Alberta School of Business surround innovation, entrepreneurship and the dynamics of organizational discontinuities. His primary stream focuses on the pragmatic use of provisional knowledge (i.e., rumors and propositions) in sensemaking within contexts characterized by uncertainty such as open innovation, market pre-history, scandal, and early stage entrepreneurial ecosystems. His secondary stream focuses on the interplay between facts and interpretation in determining organizational and reputational outcomes in organizations and social media. Dr. Hannigan employs a combination of big data/ machine learning computational text analysis techniques and qualitative research methods.

Research Focus: Organization Theory, Network Analysis, Processing, Modeling.
