### DESCRIPTION

The last 15 years, entrepreneurial ecosystems gained increased scholarly attention to highlight the importance of structural, cultural and social factors of entrepreneurship and their contextualization through the local specificities of places and territories. This workshop aims to provide comprehensive insights of the entrepreneurial ecosystem evolution, resilience, capacity to adapt and recover from endogenous pressures and exogenous shocks to build sustainable societies during turbulences and crisis challenges (such as the Covid-19 pandemic).

### REGISTRATION

**Pre-registration is encouraged but not mandatory:** We welcome empirical and conceptual contributions on the ecosystem evolution, resilience, and sustainability in times of crisis. Each attendee may submit in advance a paper summary (no more than 6-pages) that will be presented and discussed at round tables chaired by one senior editor and an ecosystem expert. Submissions should be sent by email to [c.theodoraki@tbs-education.fr](mailto:c.theodoraki@tbs-education.fr) **by March 1st**.
