# Foundational Research in Entrepreneurship Studies

## Insightful Contributions and Future Pathways

- This is the first systematic effort to reveal the classical articles in entrepreneurship research and their impact on subsequent scholarship
- The book is beneficial to entrepreneurship students as well as entrepreneurship researchers and scholars
- This book represents collective wisdom of a large team of editors and authors, who are all committed to make this book a must-have for every scholar in the field
- The book has a foreword and afterword from senior entrepreneurship researchers, Dr. Dean Shepherd and Dr. Per Davidsson, who have made distinguished contributions to entrepreneurship research

This book draws attention to the classic, seminal articles in entrepreneurship that have made profound contributions to the field's emergence, development, and maturity. In each chapter, a classic is identified, ideas contained therein that are still relevant to the field are discussed, and subsequently follow-up research that is being conducted based on these ideas is highlighted, including possible areas of future research. Scholars will embrace this systematic effort to identify and reveal the contribution of classic articles in entrepreneurship research and their impact on subsequent scholarship.
